Herkömmliche Cybersicherheitsmaßnahmen helfen nicht ausreichend gegen gezielte Angriffe von Cyberkriminellen!

Robert Dampier, Customer Success Manager

CYBERSECURITYTM
MADE IN EUROPE

Initiated by ECSO. Issued by eurobits e.V.

Global Cybercrime Damage Costs in 2022

23 Billion per day

8,4 Trillion per year

Problem

**Traditional cybersecurity
measures are not effective!**

What we do

“We create easy targets for attackers using decoys, lures, and fake data to detect and analyze attackers' behavior and tactics to protect organizations from damage.”

Agentless

You can't avoid what you can't see

Diversion

Making sure attackers waste resources on decoys, not your business

Threat Intelligence

Valuable insights into attackers' tactics and methods

CYBERSECURITYTM

Competition Landscape 2019-2023

Cyber Deception Systems Market Spotlight

© Cyber Source Data Wellington Research July 2019

SPARK Matrix™: Deception Technology, Q2 2023

May 2023 © Quadrant Knowledge Solutions

Benefits

- 1. Immediate and real alarms**
- 2. Entry points are identified**
- 3. Attacker is isolated immediately**
- 4. Threat Intelligence is generated**
- 5. Insights for other security solutions**
- 6. 0-day attacks and APTs can be defended**
