Want to bring AI to the next level?
Ask the right questions!

- Was brauchst du noch, um diese Aufgabe vollständig zu erledigen?
- Stell mir so lange Fragen, bis du alle nötigen Informationen hast, um mir den bestmöglichen Rat zu geben.
- Was brauche ich noch, um mein Ziel zu erreichen?
- Wie zufrieden bist du mit deiner Antwort – und wenn deine Zufriedenheit unter 95 % liegt, erkläre, wie du zu dieser Bewertung gekommen bist.

**This is how you move
with AI from:**

Using a Tool

to

Transformation

Generation PROTOTYPE

**Where the power of ideas matters more
than the size of the budget**

PyTorch MNIST Experiments

Add mixed precision training, learning rate scheduling, and proper validation. Also create an experiment config system so I can easily run different hyperparameter settings.

train_model.py +156 -34

Now let me update the evaluation module to save results and generate a detailed report:

evaluation.py +24 -6

Let me create a command-line runner script to make experiments easy to execute:

run_experiment.py +29

Done, configurable MNIST experiment framework reports.

- Training:** AMP, train/val split, cosine schedule, g clipping, checkpoints
- Experimentation:** YAML config, saved history, c matrix + classification report, CLI runner

Let me create a command-line runner script to make experiments easy to execute:

run_experiment.py +29

Done, configurable MNIST experiment framework with AMP and reports.

Plan, search, build anything...
