Introducing the NoEscape

Affiliate Program The project was developed in C++ from scratch without using any third-party samples and sources of other Ransomware;

SOFTWARE:

- ChaCha20 and RSA encryption algorithm;
- Configurable setting of encryption modes:
 - Ignore - ignored and not subject to encryption.
 - Fast - encryption of the beginning of the file, provides maximum speed.
 - Strong - full file encryption.
 - Balanced - fast and secure encryption of a file with spots, the parameters of spots are calculated in run-time depending on the file size.
- Support for Windows Safe Mode
- Priority Encryption Paths and Paths to Ignore
- Stopping and Removing Services
- Terminate certain processes before starting encryption
- Asynchronous file encryption on all types of drives, including network ones

Sunday at 2:55 PM

Update

- * Added support for PowerShell build
- * Added support for PowerShell-Script build
- * Added support for File-less PowerShell build

A lot of changes in the panel.

Let's take it with experience and our material. Knock toxin.

Contact TOX:

3FA4D7B4989C059F50B12F28313210ADF04EE9DFE6C2F2AD1048048E92BD4D210C419EF47F04

Spoiler: ONE

I invite you to join a full-service affiliate programme. Key benefits:

Software:

- Cross-platform build for Win/*nix/ESXi
- Cryptographically secure algorithm with stream encryption
- Flexible parameters
- Code is not based on external sources
- Articles with analysis proving the impossibility of file decryption

Panel:

- Admin panel is located in Tor network
- End-to-end encryption of all data
- Automatic build creation based on your configurations
- Almost 24/7 support
- Client-side test decryption

Negotiations:

- You can conduct communication yourself or with the help of our negotiators
- Calls to all countries worldwide
- DDoS capabilities
- Blog visited by insiders and journalists
- Access to industry journalists
- Cloud for hosting leaked files

Payment and guarantees:

- No minimum threshold for the payment amount
- Payments accepted to your wallet in a cryptocurrency of your choice
- Deposit of 1 BTC on two respected forums for over two years.

The screenshot shows a web browser window displaying the Trigona website. The browser's address bar shows the URL: `3x55o3u2b7cjs54eifja5m3ottxntlubhjt6k6htp5nrocjmsxxh7ad.onion/panel`. The website has a dark red header with the Trigona logo and navigation links for 'Settings' and 'Exit'. A chat window is open on the right side of the page, showing a conversation about file decryption. The main content area features a 'Welcome' message and a section titled 'Where you can buy Monero' with links to Kraken, Anycoin, Libra, and Binance. Below this is a 'Trial decryption' section with a file upload area.

TRIGONA

All your important files were encrypted. The data leaked and will be sold.

You have to pay the fee to decrypt files. The fee increases every hour.

Please follow the instructions below. You don't have much time.

Settings Exit Download

Welcome, [blurred]

Where you can buy Monero How to buy Monero What is Monero

kraken
Kraken is more than just a Monero trading platform. Our cryptocurrency exchange is the best place to buy, sell, trade, and learn about crypto.
Buy

anycoin direct
With Anycoin Direct, you will gain access to our platform where you can buy, sell, and trade your cryptocurrencies. Our simple process will guide you through the procedure.
Buy

libra
A simple global payment system and financial infrastructure that empowers billions of people. We provide people access to safe and affordable financial services.
Buy

BINANCE
Binance Exchange is the largest and most reliable crypto exchange. We are ready to offer you the fastest exchange speed and impressive trade volumes.
Buy

Trial decryption

You can upload **5 files** for trial decryptions

Choose a files or drag it here

Chat

Di. 15. Nov. 08:47

As a guarantee you can decrypt up to 5 files for free.

Hello, we want to pay. I understand it correct you want 2 Bitcoin ?

Where and how to pay ?
